Visit <https://affordableconnectivity.gov> for qualifications details and to apply. Approval and eligibility decided by the FCC/USAC. Discount applied within 1-2 bill cycles after signup and ACP enrollment. The ACP discount is non-transferable and limited to one monthly internet discount per household. Customers may cancel at any time without a termination fee. The ACP is a federal government benefit program operated by the FCC and, if the Program ends, or when a household is no longer eligible, you will be subject to TDS's regular rates, terms, and conditions. Limited-time offer. **1-Year Internet Price Lock Offer:** Valid for residential customers who add new TDS Internet service. Customer must provide notice of disconnection prior to 30 days after installation and request the "Money Back Offer" at time of disconnection. Pay-per-view charges, charges for unreturned equipment, advanced installation, battery backup purchase, and international calling charges will not be refunded. Offer is limited to new TDS customers without TDS service in the past 12 months, or existing customers with newly added TDS Internet, TV, phone, and/or Wi-Fi+ service. Offer cannot be combined with the Video Service Switching Cost Reimbursement Offer. Please allow 4-6 weeks for refund crediting. Offer cannot be utilized multiple times and is not transferrable. **High-Speed Internet:** Availability varies and speeds shown may not be available at all service addresses. Certain speeds are only offered in areas served by TDS Fiber. Speed ranges shown are expressed as "up to" to represent network capabilities between customer location and the TDS network. Most customers can expect to receive a stable speed within the range of the product purchased as allowed by the quality and capability of the connection; however, actual speeds experienced by customers vary and are not guaranteed. Some customers may receive lower than the indicated speed range. Speeds vary due to various factors, including but not limited to: distance from switching locations, network equipment, delivery technology, and external/internal network conditions. Speed tests may produce inconsistent results due to various factors, including the speed test program or website used, the number of devices connected to the customer's modem and whether the speed test is conducted over Wi-Fi. Customers that are not receiving the indicated speeds may cancel their service or downgrade to a lower-speed service without any termination or switching charges. Otherwise, a \$15 service charge will apply to existing customers who switch plans without increasing speed or adding qualifying service. Additional equipment may be required and charges may apply. In order to maximize Internet speeds above 100Mbps, a compatible network interface card is required. **TDS TV+:** Wireless TDS TV+ Set Top Box (STB) signal quality/range varies, and additional wiring may be required. A minimum of one STB required per account. Wireless STBs require compatible Wi-Fi equipment. Some channels are not available in all areas. Sports programming is subject to in-market availability and blackouts. TDS TV+ service uses your internet connection and bandwidth availability may restrict resolution and TV streams available. Google is a trademark of Google LLC. Cloud DVR functionality requires a TDS TV+ STB and optional monthly DVR storage fee. TV Everywhere requires TDS TV+ service and Internet access. Customers cannot switch back to TDS TV once upgraded to TDS TV+. Delinquent accounts may lose service. Certain services not available in all areas. Price may vary by serving area and is subject to change without notice.
